7.2. Best Practice

7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual

Best Practice II

1) Title of the Practice: Green Campus- Healthy Campus

2) Objective

To keep the Campus green and clean

To grow more trees with variety to help biodiversity conservation to reduce the traffic noise

To inculcate aesthetic values and eco-consciousness among the students and staff of our institution

To create good ambience for the holistic development of the student.

To improve the overall health of the people on campus

To support and implement Swachh Bharat Abhiyan for healthy India

To use Led Lights

3) The Contexts

Smt.Sharadchandrika Suresh Patil college of Pharmacy, Chopda situated in the lap of Satpuda mountain range. Satpuda forest is one of hotspot for floral and faunal biodiversity. Our institution is committed to maintain the health and biodiversity of the campus that eventually protect our environment. Campus expansion has resulted in an increase in the use motor vehicles and resource consumptions. Therefore, the college has felt the need to maintain and enhance the greenery in the campus.

4) The Practice

We plant various types of saplings with the help of students, teaching and non teaching staff of the college. These plants are made available from the nearby government and private nurseries mostly at the onset of monsoon every year and otherwise. These are successfully maintained by providing fertilizers and irrigation facility. We conduct the program by Green Army volunteers for the maintenance of our campus. The faculty members celebrate their birthdays not cutting the cake but by planting a sapling. This cake free initiative under this best practice has proved very fruitful so far more than hundred trees have been planted by the faculty members alone. The sapling planted by the faculty members on his/her birthday has to be taken care of by the concern faculty members including iron mashing and watering. Following are the major activities conducted to achieve the goal of green and healthy campus The college has conducted green audit of the campus. Right from the beginning the college has carried out labeling of plants on the college campus which helps students to understand the botanical names and specifications of the plants. College has maintained garden with labeling. Signboards/posters are displayed on the college campus for encouraging ideas of plastic-free campus, noise pollution, and environmental awareness. The energy audit of consumption of electricity in the college is conducted recently by certified external auditor. LED bulbs are installed in the college building to save electricity, The college has robust rain water harvesting mechanism that has I. resulted in the increase in groundwater levels of bore well on the campus. The chemistry laboratory uses rain water as distilled water for practical.

The tall trees help to reduce the noise and traffic sounds as the college campus is adjacent to the highway. It is a proven facilitates the plant barriers can be a solution to noise. Indeed, plant barriers are excellent solution for the traffic noise.

6) Problem encountered and Resources Required

No serious problems were face has such but during the initial phase it was difficult to find the alternative for single use plastic carry bags for the students.

- जाड पेस्ट बनवण्यासाठी आवश्यक प्रमाणात पाणी घालावे जेणेकरून वीट तयार होईल.
- वरील मिश्रण एका वीट मोल्डमध्ये घाला.

एक दिवसीय कार्यशाळा आयोजित करण्यात आली आहे
~ विषय ~
" शेण आणि कापसाच्या झाडापासून बनविलेल्या वीट - नैसर्गिक इंधन "
दिनांक: 10/07/2021
नैसर्गिक इंधन तयार करण्याची पद्धत :
• वीट कापसाच्या बाळलेल्या शेतांच्या आणि गाईच्या शेणापासून बनविल्या जाताना.
• 1 किलो शेण व्हा, 100 ग्रॅम बाळलेल्या कापसाच्या झाडाचे पाचदरमळ मिसळ करा.
• जाड पेन्ट बनवण्यासाठी आवश्यक प्रमाणात पाणी घालावे जेणेकरून वीट तयार होईल.
• खरील मिश्रण एका वीट मोल्डमध्ये घाला.
• अशा प्रकारे सूर्यप्रकाशामध्ये कोरडे झाल्यानंतर वीट तयार होईल.
आम्हाला आशा आहे की सर्व शेतकरी आणि वचत गट सदस्य या कार्यशाळेचा लाभ घेतील व त्यासाठी उपस्थित राहतील. खाली दिलेल्या व्यक्तींकडे आपली नावे नोंदवा:

UNNAT BHARAT ABHIYAN
Integrating Hydroponics into the Curriculum
While Promoting Entrepreneurial Skills

Goal : • To design and construct a hydroponic system that could be integrated into the curriculum while introducing business skills to the students and SHG groups.
• The project focused on the cultivation of several plant species and based systems: hydroponic plants mainly Lettuce, Spinach, Strawberries, Bell Peppers, Herbs, Radish root cultures, cultivated moss and suspension cells.

Advantages of Hydroponics farming :

- Increase in yield up to 5 to 10 times - high productivity per unit area Significant saving in key inputs like water (up to 50%), fertilizers (25%) and pesticides.
- Better growth and uniformity in quality.
- Feasible even in undulating terrains, saline, water logged, sandy & hilly lands.
- We accomplished this goal by completing the following objectives: Understanding the needs of Global Medicinal plants Market and to contribute to AAYUSH (Ayurveda) launched by Central Govt.
- Designing and Constructing the selected hydroponic system.
- Recommending interactive & engaging activities for the students introducing entrepreneurial skills.
- To demonstrate and evaluate technologies related to protected / intensive cultivation of high value crop or vertical farming in Regional context of Satpada Region.
- To transfer the technological packages developed under the project to the farmers of the state through capacity building by way of training and demonstration.
- Nursery of horticulture and vegetable crop will be available for farmers.
